Subject: Microsoft Settlement

I have followed the Microsoft case closely. I have used both Microsoft's and its competitor's products. I do not feel that Microsoft has forced me to use their products. I can and am able to choose another if I want. American freedom means that I can choose what I want to use. I do not need the government to level the playing field for me. Just because one company's products are more successful than another's taxpayer's money should not be used to prop up the less successful company. Let all who want to play in the marketplace go out and take a chance. America's government of the people by the people for the people should not punish an American success story. Don't politicians and regulators have better and more important things to do??
